High Speed Hand Dryer with Auto Sensor

Model No's: DH378, DH379

Thank you for purchasing a Dellonda product. Manufactured to a high standard, this product will, if used according to these instructions, and properly maintained, give you years of trouble free performance.

Important Information

Please read these instructions carefully and note any safe operational requirements, warnings & cautions. Use the product correctly and with care for the purpose for which it is intended. Failure to do so may cause damage and/or personal injury and will invalidate the warranty. Keep these instructions safe for future use.

Safety

ELECTRICAL SAFETY

- **WARNING!** It is the user's responsibility to check the following:
- Check all electrical equipment and appliances to ensure that they are safe before using.
- Inspect power supply leads, plugs and all electrical connections for wear and damage.
- Ensure that the insulation on all cables and on the appliance is safe before connecting it to the power supply.
- **DO NOT** use worn or damaged cables, plugs or connectors. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- Ensure that any faulty item is repaired or replaced immediately by a Dellonda qualified technician.
- If the cable or plug is damaged during use, switch off the electricity supply and remove from use.
- Dellonda recommend that an **RCD** (Residual Current Device) is used with all electrical products.
- **Important:** Ensure that the voltage rating on the appliance suits the mains power supply.
- **DO NOT** pull or carry the appliance by the power cable.
- The installation of a residual current device is recommended, having a rated residual operating current not exceeding 30mA. Ask an electrician for advice.

GENERAL SAFETY

- Children from age 8 years and above, persons with reduced physical, sensory, or mental capabilities those with lack of experience and knowledge can use the appliance, if they have been given supervision or instruction concerning use of the appliance in a safe way to understand the hazards involved.
- Children shall **NOT** play with the appliance.
- Cleaning and user maintenance on the appliance shall not be made by children without supervision.
- The appliance shall be disconnected from its power source during service and when replacing parts.
- **WARNING! DO NOT** use this appliance near bathtubs, showers, basins, or other vessels containing water, or in places prone to freezing.
- This appliance is designed to be used in commercial areas.
- **DO NOT** open the front panel: risk of electric shock.
- **DO NOT** splash with water: risk of electric shock.
- **DO NOT** disassemble. Professional repair only.

Specification

- Models: **DH378/DH379**
- Drying Time: 10-15s
- Filter Options: Sponge
- **IP Rating: IP24**
- Material: **ABS**
- Maximum Air Speed: 105m/s
- Maximum Air Volume: 28L/s
- Motor Class: Carbon Brush **AC** Motor
- Motor Power: 600W
- Noise Rating: 76dB @ 1m
- Operating Temperature: $\leq 70^{\circ}\text{C}$
- Plug Type: Bare Wire
- Power Supply Cable Length: 1.7m
- Dimensions (WxDxH): 250 x 165 x 238mm
- Supply: 230V 50Hz

Product Overview

- **TRANSPORT OF PRODUCT:** Keep product in original packaging to protect it prior to use.

Installation

- **DO NOT** Install:
 - in places with temperatures below -10°C or over 40°C
 - in places splashed by water
 - in direct sunlight
 - in places with condensation
 - in places with flammable or corrosive gas
 - over 2000m in altitude

INSTALLATION LOCATION

- The diagram below shows the recommended location and distance from the floor.
- Keep the unit away from a mirror as water droplets may splash out when hands are dried.
- Avoid places where people congregate and keep away from doors.
- Select a flat wall to install this product.

METHOD OF INSTALLATION

- **ELECTRICAL CONNECTION fig.2:** When installing unit without terminal box, install above the right side of unit with two-hole standard outlet. The distance should be 20-50cm.
- **FIT WALL MOUNTING PLATE NOTE:** Installation method of fixing is not to rely on the use of adhesives.
- Fix the mounting plate on wall with screws and wall plugs appropriate to the material of the wall.
- The unit provides a long power cord, please cut off the extra power cord as required.
- Connect unit to mains supply.
- Slide body onto plate.
- Ensure body is seated on wall mounting plate, fig.5.
- Remove filter box and fit security screw into 45° bracket and into wall mounting plate, fig.5.

	Step	Confirm information	Check & Note
1	Gently shake unit	Unit is installed firmly	If unit moves and is noisy it isn't installed firmly enough
2	Confirm power and voltage	Connect to rated power supply	Incorrect power supply will burn unit out and is dangerous
3	Switch on mains supply Turn power switch on	Check power indicator light	Check power indicator light is not too bright
4	Place hands for drying	High speed air should blow out	Confirm distance sensor is working
5	Turn heating switch on	High speed hot air should blow out	Dryer can be set for hot or cold operation

Maintenance

EXTERNAL MAINTENANCE

• Wipe exterior with a damp cloth with mild detergent. **DO NOT** use solvents or aggressive cleaning products.

• **INTERNAL MAINTENANCE:** see fig.6

End of life

• Recycle product according to regulations in force at the end of its useful life.

Environment Protection, Waste Electrical and Waste Electronic Equipment Regulations (WEEE)

Recycle unwanted packaging materials. When this product is no longer required, or has reached the end of its useful life, please dispose of in an environmentally friendly way. Drain any fluids (if applicable) into approved containers, in accordance with local waste regulations. It is our policy to continually improve products and we reserve the right to alter data, specifications and parts without prior notice. No liability is accepted for incorrect use of this product. Guarantee is 12 months from purchase date, proof of which is required for any claim.
