Wear eye protection

Wear protective gloves

1. SAFETY

IMPORTANT Read the instructions carefully. Be familiar with the controls and the correct use of the product.

- WARNING!** Ensure health & safety, local authority, and general workshop practice regulations are strictly adhered to when using this equipment.
- ✓ Refer to Manufacturer's workshop manuals in order to ascertain correct procedure for using this product.
- ✓ Familiarise yourself with product application and limitations, as well as the specific potential hazards peculiar to this product.
- ✓ Maintain the product in good condition (use an authorised service agent).
- ✓ Replace or repair damaged parts. Use genuine parts only. Non authorised parts will invalidate the warranty.
- ✓ Ensure safety eye protection and protective clothing are worn when using this product.
- ✓ Keep the work area clean, uncluttered and ensure there is adequate lighting.
- ✓ Maintain correct balance and footing. Ensure the floor is not slippery and wear non slip shoes.
- ✓ Keep children and unauthorised persons away from the working area.
- ✓ Dispose of waste liquids in accordance with local authority regulations.
- ✓ Keep the product clean and store in a safe, dry, childproof location.
- WARNING! DO NOT** allow uncontrolled discharge of fluids thus polluting the environment.
- WARNING!** Always pay attention to the pressure control since it's a pressurised unit.

2. INTRODUCTION

Air pressure removes up to 2L of residual oil left behind by gravity-based draining methods. Flushes and drains transmission oil in one operation. Compatible with Mercedes 722.6 and 722.9 BMW 6HP and 8HP automatic transmissions. Streamlined process minimises service time, boosting productivity. Supplied in a storage case.

3. SPECIFICATION

Model No: VS7018
Maximum Pressure: 140psi

4. CONTENTS

5. OPERATION

Refer to image below.

- 5.1. Drain transmission oil.
- 5.2. Remove transmission oil sump.
- 5.3. Assemble the kit: connect airline to gauge regulator: connect regulator hose to shut off valve: screw shut off valve into correct adaptor.
- 5.4. Fit adaptor to the oil drain plug hole.
- 5.5. Open air tap on shut off valve and adjust air pressure to 0.5 bar on pressure regulator, to drain transmission oil.
- 5.6. When drained, remove from air supply, remove tool in reverse order that it was assembled.
- 5.7. Refit transmission oil sump and gasket.
- 5.8. Follow manufacturer's guidelines for filling up transmission oil.

Parts support is available for this product. To obtain a parts listing and/or diagram, please log on to www.sealey.co.uk, email sales@sealey.co.uk or telephone 01284 757500

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

Note: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

Important: No Liability is accepted for incorrect use of this product.

Warranty: Guarantee is 12 months from purchase date, proof of which is required for any claim.
