1. SAFETY

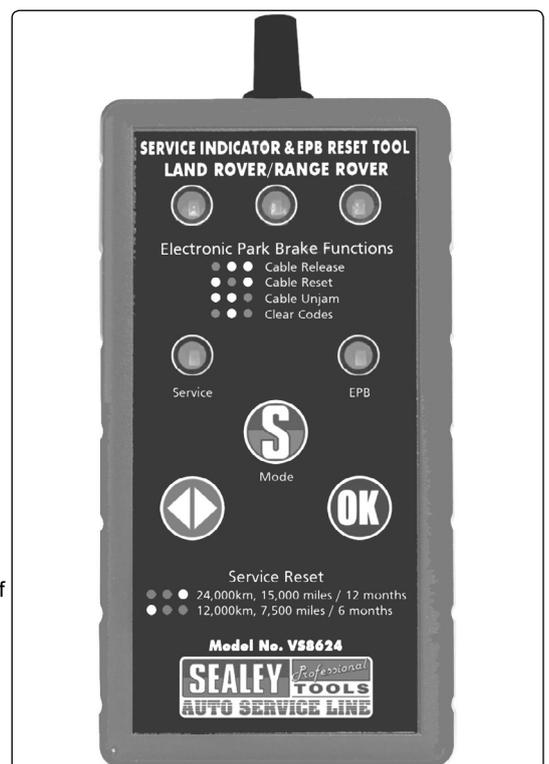

- ❑ **WARNING!** Ensure that Health and Safety, local authority and general workshop practice regulations are strictly adhered to.
- × **DO NOT** use the unit if it, or any attachment, is damaged.
- ✓ Maintain tester in good and clean condition for best and safest performance.
- ✓ If required, ensure that the vehicle to be worked on is adequately supported with axle stands or ramps and is chocked.
- ✓ Put transmission in PARK (for automatic transmission) or NEUTRAL (for manual transmission) and make sure the parking brake is engaged, or wheel chocks are in place.
- ✓ Wear approved eye protection. A full range of personal safety equipment is available from your Sealey dealer.
- ✓ Wear suitable clothing to avoid snagging. Do not wear jewellery and tie back long hair.
- ❑ **WARNING!** Use extreme caution when working around the ignition coil, distributor cap, ignition wires and spark plugs. These components create hazardous voltages when the engine is running.
- × **DO NOT** connect or disconnect any test equipment with ignition on or engine running.
- ✓ Keep a fire extinguisher nearby, which is suitable for gasoline/chemical/electrical fires.
- ✓ Account for all tools and parts being used and do not leave any in the engine bay.
- ✓ Keep reset tool dry, clean and free from oil, water and grease. Use a mild detergent on a clean cloth to clean the outside of the tool.
- ✓ Operate the vehicle in a well-ventilated work area; exhaust gases are poisonous.
IMPORTANT: Always refer to the vehicle manufacturer's service instructions to establish the current procedure and data. These instructions are provided as a guide only.
- ❑ **WARNING!** The warnings and instructions discussed in this manual cannot cover all possible conditions and situations that may occur. It must be understood that common sense and caution are factors which cannot be built into this product, but must be applied by the operator.

2. INTRODUCTION

Essential tool for extinguishing the service indicator and resetting Electronic Parking Brake on Land Rover and Range Rover vehicles. Simple push button operation allows EPB cable to be released and re-attached and, in the event that the emergency hand brake has been activated, allows the user to reset the system, and clears codes that may have been generated as a result of the emergency cable being pulled. It also allows the EPB to be un-jammed when the vehicle has entered a state of brake screech when applying the parking brake, where the rear brakes squeak or rub when the vehicle is moving or there is evidence of shoe-drag. Powered by connection to the vehicle.

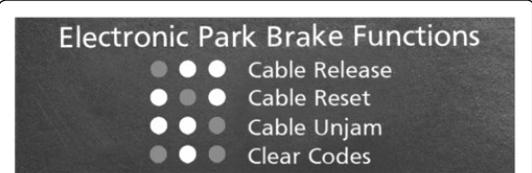

3. OPERATION

- 3.1. The VS8624 tool:
 - is compatible with the latest CAN vehicles.
 - enables Service and Inspection mode for safe working practices.
 - is updateable.
- 3.2. The VS8624 Land Rover/ Range Rover Service Indicator Reset and Electronic Park Brake (EPB) tool has been designed to extinguish service indicators and to mount the cable for the EPB for Land Rovers and Range Rovers. In addition, it will also allow the resetting of the EPB system if the emergency release cable has been activated, and to release the EPB in the event that it has become jammed.
- 3.3. Service Function:
Service Reset – Will reset the service indicator on the vehicle.
 - 24,000km / 15,000 miles / 12 months
 - 12,000km / 7,500 miles / 6 months

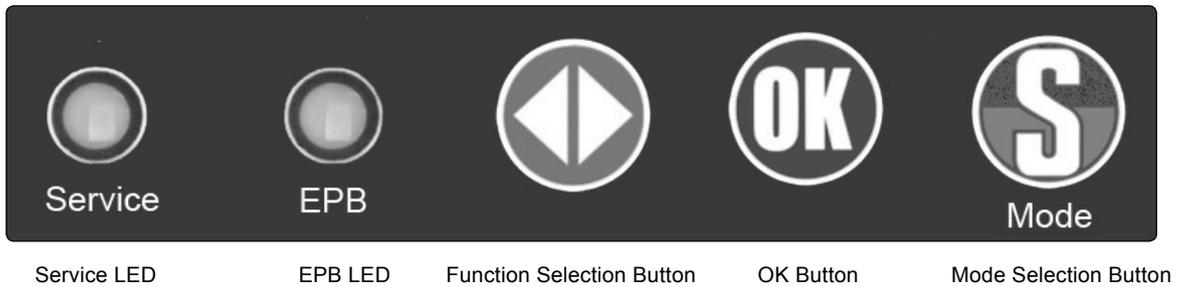

- 3.4. Electronic Park Brake (EPB) functions:
- Cable Release – Releases the cable to allow the Brakes to be changed on the vehicle.
 - Cable Reset – Resets the cable if the Emergency release cable has been activated.
 - Cable Unjam – Allows the EPB to be un-jammed when the vehicle has entered a state where the brakes screech when applying the Parking Brake, the rear brakes squeak or rub when the vehicle is moving, or there is evidence of shoe-drag.
 - Clear Codes – Allows the clearing of any codes that are, or have been present as a result of the emergency cable being activated or the Parking Brake becoming jammed.

MODE Selection for Electronic Park Brake (EPB) Functions.

MODE Selection for Service Reset Functions.

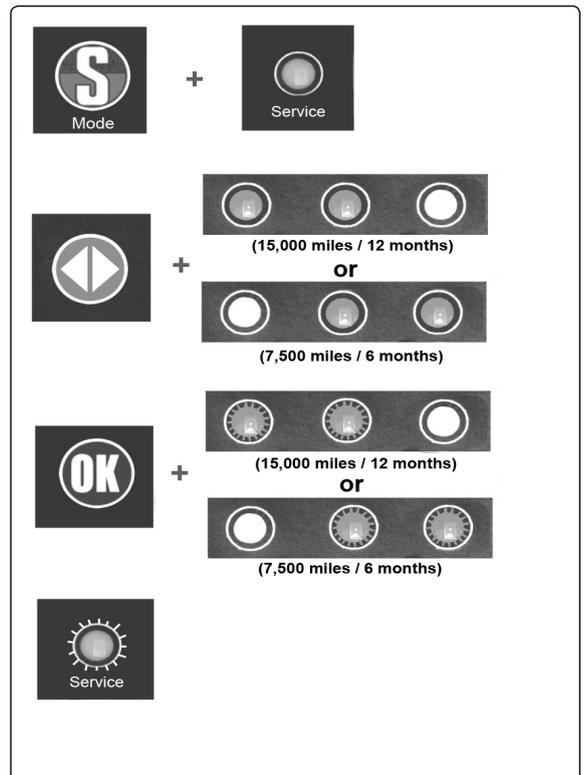

3.5. **Vehicle Set-Up**

- 3.5.1. Ensure vehicle's ignition is turned off.
- 3.5.2. Connect the Reset Service tool to the diagnostic socket on the vehicle, refer to the vehicle owner's manual for it's location.
- 3.5.3. Turn on the vehicle's ignition.

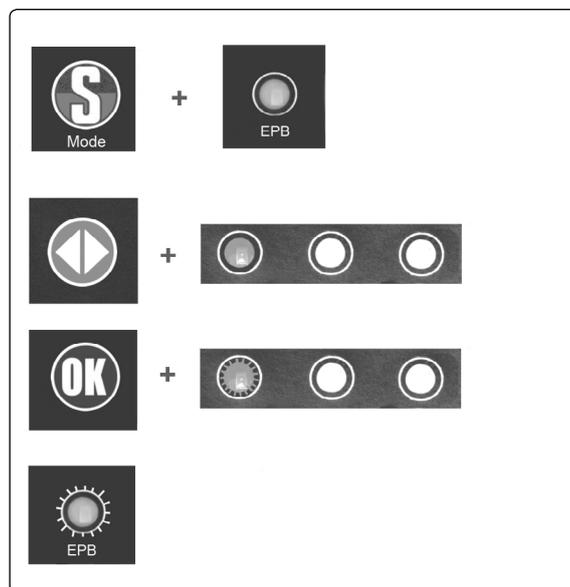

3.6. **Service Reset - 24,000km / 15,000 miles / 12 months or 12,000km / 7,500 miles / 6 months**

- 3.6.1. Press Mode button to select correct type (Service).
- 3.6.2. Press the Function button to select the appropriate service reset.
- 3.6.3. Press the 'OK' button to reset the service indicator. The Function LED's will flash to indicate a successful reset.
- 3.6.4. If the reset is unsuccessful, Mode LED Selection will flash.

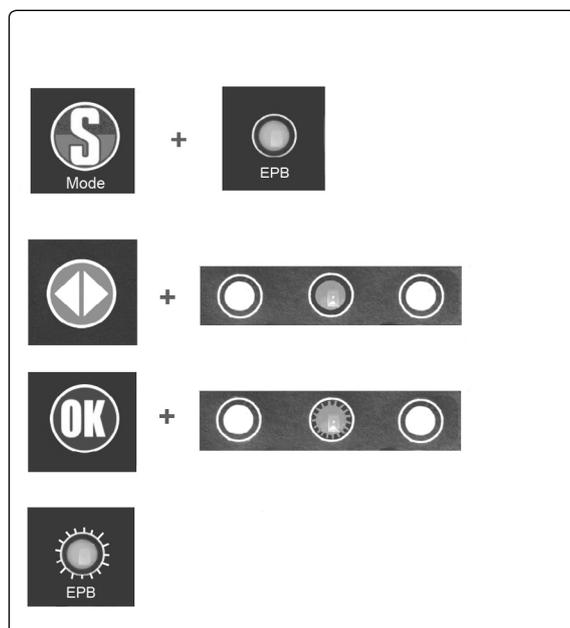

3.7. **Cable Release**

- 3.7.1. Press Mode button to select correct type (EPB).
 - 3.7.2. Press the Function button to select the appropriate EPB operation.
 - 3.7.3. Press the 'OK' button to activate the cable release function.
 - 3.7.4. The Function LED will flash to indicate a successful reset.
 - 3.7.5. If the function is unsuccessful, Mode LED Selection will flash.
- Note: For safety reasons we recommend removing the EPB 30A fuse from the battery junction box.

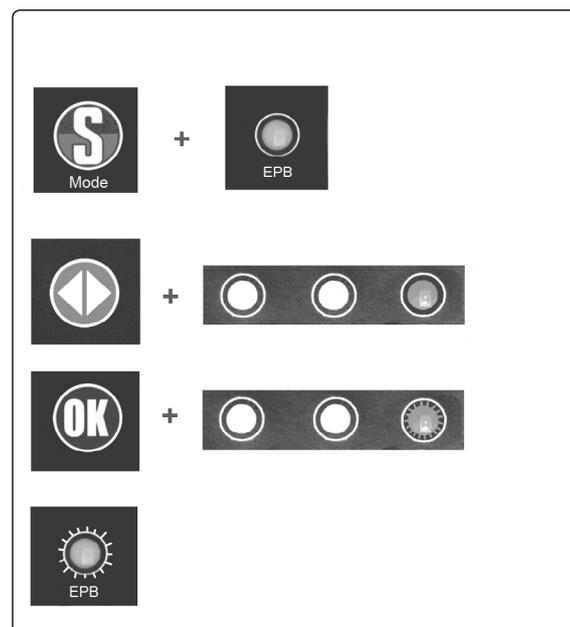

3.8. **Cable Reset**

- 3.8.1. Press Mode button to select correct type (EPB).
 - 3.8.2. Press the Function button to select the appropriate EPB operation.
 - 3.8.3. Press the 'OK' button to activate the cable reset function.
 - 3.8.4. The Function LED will flash to indicate a successful reset.
- Note: For safety reasons we recommend removing the EPB 30A fuse from the battery junction box.

3.9. **Cable Unjam**

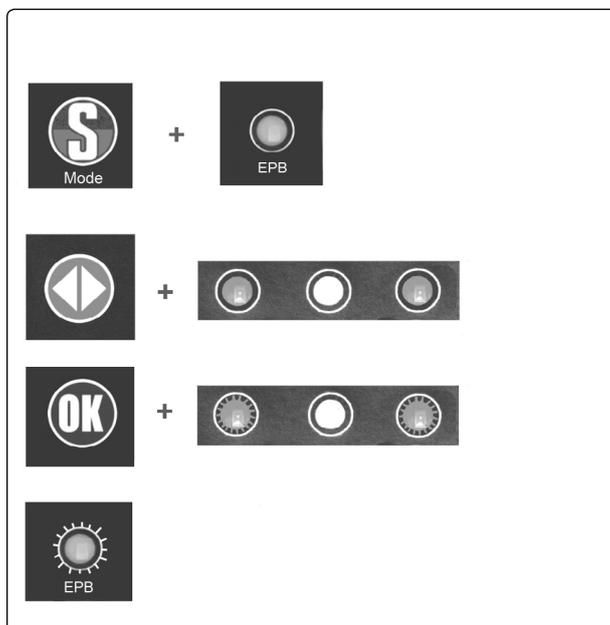

- 3.9.1. Press Mode button to select correct type (EPB).
 - 3.9.2. Press the Function button to select the appropriate EPB operation.
 - 3.9.3. Start the engine and run at idle.
 - 3.9.4. Press the 'OK' button to activate the cable unjam function. When the FunctionLED flashes, turn the ignition off. If the function is unsuccessful, Mode LED Selection will flash.
- Note: As part of this process, the Clear codes routine is automatically run to clear any codes within the EPB system.
- Note: For safety reasons we recommend removing the EPB 30A fuse from the battery junction box.

3.10. Clear Codes

- 3.10.1. Press Mode button to select correct type (EPB).
- 3.10.2. Press the Function button to select the appropriate EPB operation.
- 3.10.3. Press the 'OK' button to clear any stored codes within the EPB module. The Function LED will flash to indicate clear codes was performed successfully.
- 3.10.4. If the function is unsuccessful, Mode LED Selection will flash.

Note: Any codes that are not able to be cleared will remain on the Module. Use the Sealey VST Electronic Auto Service and Diagnostic Tool to determine what these codes are and what steps need to be taken to resolve the problem.

TECHNICAL HELP LINE No. 01284 757505

Please register your product with Sealey by completing the registration form on-line at www.sealey.co.uk
Navigate to Register Product. By registering your product you can take advantage of Sealey product and technical updates via email.

Environmental Protection

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain off any fluids (if applicable) into approved containers and dispose of the product and the fluids according to local regulations.

WEEE Regulations

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

NOTE: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

IMPORTANT: No liability is accepted for incorrect use of this product.

WARRANTY: Guarantee is 12 months from purchase date, proof of which will be required for any claim.
